

EL DORADO COUNTY GENERAL PLAN PARKS AND RECREATION ELEMENT

PRINCIPLE

The General Plan must identify the types of governmental services, including parks and recreation facilities, which are necessary to meet the needs of residents and businesses and must provide a fiscally responsible approach for ensuring that these service needs are met.

INTRODUCTION

This Parks and Recreation Element establishes goals and policies that address the long range provision and maintenance of parks and recreation facilities needed to improve the quality of life of existing and future El Dorado County residents. El Dorado County residents are in need of additional recreational lands and facilities, and the policies and implementation measures included in this element are responsive to that demand. The overall focus of the Parks and Recreation Element is on providing recreational opportunities and facilities on a regional scale, including trails and waterways; securing adequate funding sources; and increasing tourism and recreation-based businesses. The element also addresses the location, demand, management, and provision of parks and recreation facilities.

STATE AUTHORIZATION

The Parks and Recreation Element is consistent with the requirements set forth in the California Government Code Section 65302 and other applicable sections. The California Government Code Section 65302 specifies the elements that must be included in county and city general plans. However, local governments may adopt any other elements or address any other subjects that relate to the physical development of a county or city (Government Code 65303). Though not required by law, the inclusion of the Parks and Recreation Element is optional. However, once an optional element is adopted, it carries the same importance as the required elements and must be internally consistent with the other elements of the General Plan. Additionally, under the Quimby Act (Government Code Section 66477), conditioning subdivision approval upon the provision of park or recreation areas must be based upon an assessment of needs contained in the general plan.

This element encompasses portions of the mandatory Land Use and Open Space elements set forth by the California Government Code. Provisions within each of these elements apply to land for recreation. Specifically, State law requires that the general plan shall include:

“A land use element which designates the proposed general distribution and general location and extent of the use of land for . . . recreation . . .”
(Government Code Section 65302 (a)).

An open space element that designates land “for outdoor recreation, including . . . areas of . . . cultural value; areas particularly suited for park and recreation purposes, including access to lakeshores, beaches, and rivers and streams; and areas that serve as links between major recreation and open space reservations, including utility easements, banks of rivers and streams, trails . . .”
(Government Code Section 65560 (b)).

RELATIONSHIP TO OTHER ELEMENTS

Additionally within this General Plan, preferred locations for parks are also addressed in the Land Use Element. The use of open space for recreational activities is also discussed in the Conservation and Open Space Element. In the Land Use Element, scenic and cultural resources and scenic roadways are discussed. Bikeways are also discussed in the Circulation Element of this General Plan.

ORGANIZATION OF THE ELEMENT

The Parks and Recreation Element policy section addresses: (1) acquisition and development of regional, community, and neighborhood parks; (2) provision of a trail system; (3) conservation and promotion of waterways for recreation; (4) coordination with other recreation providers; (5) securement of funding; and (6) provision of opportunities to increase tourism.
